Teachers Determine Grades Including Categories & Weights

Teachers will determine student grades based on the criteria that they provided students and parents at the beginning of the semester. PowerSchool will not be used to change weights or grades that you enter into the system for report cards.

The California Education Code protects teachers' rights to grade students. When grades are given for any course of instruction taught in a school district, the grade given to each pupil shall be the grade determined by the teacher of the course and the determination of the pupils grade by the teacher, in the absence of clerical or mechanical mistake, fraud, bad faith, or incompetence, shall be final. § 49066
