\$14,700.00	educational savings account

Dr. Mark Skvarna continues to serve as Interim Superintendent.

## Bargaining Update 2021

### 2021-2022 Return to School MOU Bargaining Continues

The District and the Association met Thursday, July 22, and plan to meet again Monday, July 26. The goal is have an agreement ready for a ratification vote early next week. The agreement will focus on working conditions for returning to school this August.

### Independent Studies Will Be Negotiated Next

The next task will be to discuss the K-12 grade contract independent program mandated in the State budget. In past years the District has primarily offered 9-12 grade contract independent study and limited 7-8 grade classes. Parents are currently being surveyed on whether students will be attending traditional in-person school or independent study. The District will use the data to compute the number of full time independent study teachers needed at each level and credential area. Information regarding the number of teacher vacancies for independent study and details about the structure of the programs will be available as soon as possible.
